Project handover checklist

Status: INDICATIVE. This is original general working material. It contains no verified client data, market benchmark, survey result, design approval, or professional advice.

How to use this resource

- A close-out checklist for teams transferring a completed work package to an owner or operator.
- Confirm approved as-built records, test certificates, warranties, snag ownership, and operations training against the contract.
- Do not mark an item complete solely because a file exists; record reviewer, date, and location of the accepted evidence.

Evidence record

Project / package	Evidence source	Reviewer	Date	Status

Use only with project-specific verification. The responsible professional or contract administrator remains accountable for any decision made from this material.
