Rate-comparison worksheet

Status: INDICATIVE. This is original general working material. It contains no verified client data, market benchmark, survey result, design approval, or professional advice.

How to use this resource

- A printable comparison grid for like-for-like vendor review. It does not calculate a market rate or recommend a supplier.
- List one measurable activity per row. Capture inclusions, exclusions, tax treatment, programme implications, and the source quote.
- Ask a commercial reviewer to reconcile scope before choosing a lowest figure.
