

WORKING PAPER

IS 1200 vs CESMM4: a comparison worksheet

Status: INDICATIVE. This is original general working material. It contains no verified client data, market benchmark, survey result, design approval, or professional advice.

How to use this resource

- A neutral comparison worksheet for measurement-basis discussions. Confirm the governing contract documents before use.
- For each work section, record the chosen measurement rule, inclusions, exclusions, drawing reference, and valuation consequence.
- This note does not interpret either standard or replace qualified contractual advice.
